

Design a Candy Carton

A candy company wants you to design a carton that will contain 18 candies.

Your design must take into account the following:

- The candies are each 1cm deep and 2cm in diameter.
- The carton must be made from a net that fits on a single sheet of letter-sized cardboard.
- The design should require as little cutting as possible.
- The sides of the carton will be fixed together using glue flaps.
- Show where these will be on your net.

Produce two possible designs for nets of the candy carton.

Compare your two designs.

Record in writing which carton you think is best, and why.

Hint Sheet A

Which nets will fold up to make a closed carton?
